## **Grounds for Rejection**

## Applicant's Request for Withdrawal of Improper Action Finality

1. In response to the Applicant's request for withdrawal of improper action finality, the Examiner maintains the Final Office Action. The Applicant contends that changing the word "reference" to "standard" was in response to correcting a lack of antecedent basis. The Examiner would like to note that the Applicant could have changed "the reference value" to "a reference value" to clear up the issue of a lack of antecedent basis. However, the Applicant chose to change "the reference value" to "the standard value." This significantly changes the scope of the claims. Further, the terms reference and standard have different accepted meanings.

## Claim Rejections - 35 USC § 103

2. Claims 1-4, 7, and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bauer et al., U.S. Patent 4,535,456, and further in view of Sadre et al., U.S. Patent 5,485,620.
